

```
#include<stdio.h>

int main(){
    int n;int i;

    printf("Array size: ");

    scanf("%d", &n);

    int arr[n];

    printf("Elements of the array: ");
    for(i=0;i<n;i++){
        scanf("%d",&arr[i]);
    }

    for(i=n-1;i>=0;i--){
        printf("%d ",arr[i]);
    }
    return 0;
}
```
